More Talk

About Time.

Some people are peculiar in the matter of buying a Watch. A silver Watch is good enough for one man so long as it keeps good time. Another one wants something a little more showy--a gold one,---but it, too, must more showy—a gold one,—but it, too, must keep good time. Some want a high-priced Watch, others a cheaper one, but after all everybody wants a correct timepiece. We selected our stock with time in view, and can sell you a high, low or medium-priced Watch ---and any of them will keep time---the essential point. We repair Watches so that we can guaran-tee them to keep time. Charges low.

OPEN LETTER

From the Hon. O. S. Deming to Senator J. D. Rummans.

MT. OLLYBY, KY., March 199th, 1897.

Hen. J. D. Rummann, Frankfort, Ky.—

best Sir: I regret exceedingly that you

still think it your-duly to vote against Dr.

Runier for United States Senator. If

your-continued opposition arises from unkled words beretofore spoken by the Doctor, his recent maniy statement and explanation should satisfy you; if it arises from a desire for revenge, it is un-worthy of your high character for fairpersonal preference for another this should be subservient to the rights and should yield to the imperative demands of the

arty's nomince. You doubtless remember our converse tion in Meysville some weeks ago, when, in speaking of your personal dislike of Hunter and your preference for another, I asked you in the event Dr. Hunter hould again receive the nonlination for United States Senstor at a called session if you would vote for him. You said,
"Yos, in that event I would vote for him,
but it would he a bilter pill." Has anything occurred to make the pill more bitter? Has his apology for the wrong you thought he bad done you intensified the bitterness of the dose? Has not the ac-tion of an overwhelming majority of Kentucky Schators and Representative made Dr. Hunter the Republican nominee for United States Senator, and does no for United States Senator, and does not party loyalty and party honor require you either to vote for him or show that he is totally unworthy of your support? Are you a better Republican than those Senators and Representatives who gave bim the caucus nomination, or are now faithfully trying to elect him because he

We all have our preferences, and it is true that Kentucky has many Republi-cans who would honor the seat once occu-pied by Crittenden and Clay, and that Dr. Hunter is not the choice of many good people, yet our preferences should be shown, and we should exhibit our de-votion to our personal friends, in the bat-tie for their nomination. All opposition should speud itself in the caucus. Al good Republicans should honestly and representatives, unless some good and satisfactory evidence is shown that he is morally or mentally unworthy of their

support.

It won't do to say "They didn't nominate
the man 1 wanted," that "There are
others better qualified for the position," or that "There are objections to him," for it would be a miracle to find the man everybody wanted or to select a man fre from objection.

Having shown our devotion to our friends by trying to secure their nomina-tion, or to prevent the nomination of some one distasteful to them or to us, and fail ing in this, we shauld then prove our de votion to our party and our respect for our constituents by an enthusisstic sup port of the choice of our brother Repub-licans who fairly and honestly beat us i the contest for the nomination

The future success of the Republics party in Kentucky requires perfect har-mony, it has no lease of power in this state. Every factional dispute weakens our party, and if it is again successful l1 will be because it has proved to the peo ple that It deserves success, and has drawn together ail factions by fair and square dealing instead of driving them apart by petty acts of jealeusy and spite.

The tax-ridden voters of Kentucky will be very apt to remember the party and especially the individual members of that party who are daily increasing the state' Indebtedness by wilfully preventing the election of a United States Senstor when it is in their power to elect one without a moment's delay.

I trust, Mr. Senator, after du erstion, you will see that your duty to Kentucky, to the Republican party and to yourself requires of you an earnest and faithful support of the caucus nomines for United States Senator. I sm, with O S. Deming
